

PRACTICE, PRACTICE!

ALYSSA AND MICHAELA each keep their sewing project in a binder. Ask mom to pick one up at the store along with some plastic pages! You can keep all your samples, notes and instructions in your binder. If you find one with a plastic insert on the cover you can personalize it with your name!

Draw lines or practice stitching straight lines on stripe fabric and keep the sample in your binder. Practice over and over and you'll be really good!

Sewing With Kids

Have mom draw a curve on fabric and practice stitching. When you are happy with your sample keep it in the binder too!

We practice sewing $\frac{1}{4}$ " seam every time we sew! I draw $\frac{1}{4}$ " line and Alyssa and Michaela practice stitching the line.
